Mottlock® Mottenbox

1. Product and company identification

- Trade name: **Mottlock® Mottenbox (Glue Trap for Clothes Moths)**
- Manufacturer / supplier: ARIES Umweltprodukte
Stapeler Dorfstraße 23
D-27367 Horstedt
Tel.: +49 (0)4288 9301-0
Fax: +49 (0)4288 9301-20
internet: www.aries.de
- Emergency telephone: The GIZ-Nord Poisons Centre
Tel.: +49 (0)551 19240

2. Composition / information on ingredients

- Chemical characterization:
Textile-protected box with sticking board and integrated pheromones for cloth moths
- Hazardous ingredients:
None

3. Hazards identification

Particular hazards for humans and the environment:

Not a hazardous substance as defined in 1999/45/EC

4. First aid measures

- **General information:**
No special measures are necessary.
- **Inhalation:**
Promptly remove to fresh air. If problems persist, consult a physician.
- **Skin:**
Flush skin with water.
- **Eyes:**
Lift lid and immediately flush open eye with running water for several minutes. Consult an eye doctor.
- **Ingestion:**
If accidentally swallowed immediately consult a physician.

Mottlock® Mottenbox

5. Fire-fighting measures

- **Extinguishing media:**
Use any extinguishing agent suitable for surrounding fire.
- **Special exposure hazards arising from the substance or preparation itself, combustion products, resulting gases:**
Fire gas of organic material has to be classed invariably as respiratory poison.
- **Special fire-fighting precautions / instructions:**
Use breathing apparatus with independent air supply.
- **Other information:**
Remove containers that are at risk, or cool them by spraying water. Collect residue and/or contaminated liquid and dispose of in accordance with applicable regulations.

6. Accidental release measures:

- **Person-related safety precautions**
Observe the usual precaution measures for handling chemicals.
Intensive hand/skin contact can lead to contamination and attract moths.
- **Measures for environmental protection**
No special measures required.
- **Procedures for cleanup / containment:**
Place in suitable containers for reclaiming or disposing.

7. Handling and storage

- **Information for safe handling:**
Keep container tightly sealed. Avoid formation of dust.
Ensure good ventilation at the workplace when filling / repackaging.
- **Information on fire and explosion protection:**
No special measures required.
- **Instructions for warehouse and packaging:**
Keep sealed in the original containers and store in a dry place at 15...25°C.
- **Information on storage with other substances:**
No special measures required.

8. Exposure control / personal protection

- **Additional information on designing technical facilities:**
Adequate ventilation and exhaustion.
- **Other information:**
Intensive hand/skin contact can lead to contamination and attract moths.

Mottlock® Mottenbox

- **Respiratory protection:**
No special measures required.
- **Protective gloves:**
No special measures required.
- **Eye protection:**
No special measures required.
- **Physical protection:**
No special measures required.
- **General protective measures:**
Observe the usual precaution measures for handling chemicals.
Do not inhale dust.
- **Work hygienic practices:**
Keep away from food. Wash hands before breaks and after work.

9. Physical and chemical properties

- **Form:** Textile-protected box
- **Appearance:** transparent sticking surface
- **Odour:** odourless

10. Stability and reactivity

- **Thermal decomposition / conditions to be avoided:**
Decomposition will not occur if the product is used and stored according to specifications.
- **Materials to be avoided:** None known
- **Dangerous reactions:** None known
- **Dangerous products of decomposition:** None known

11. Toxicological information

- **General toxicological information:**
The product is to be treated with the standard caution in handling chemicals.
- **Other information (on experimental toxicology):**
No data available.
- **Other toxicological information:**
No data available

Mottlock® Mottenbox

12. Ecological information

- **General information:**

No ecological data are available.

The substance has to be seen as none toxic material without any negative effects on the environment.

13. Disposal considerations

- **Recommendations for this product:**

There are no standardized guidelines on chemical disposal in the member states of the EU. Reclaimable materials have to be handled as special waste materials. Disposal must comply with applicable local, state, and federal regulations.

- **Recommendations for packaging:**

Disposal of uncleaned packaging materials must comply with applicable local, state, and federal regulations. Cleaned packaging materials can be re-used.

14. Transport information

- **Information about transport:**

Not classified as a hazardous material

15. Regulations

- **Symbols in compliance with EC guidelines / hazardous materials regulations:**

The product does not have to be labeled

- **National regulations:**

Follow all regulations in your country

16. Other information:

Recommended usage and restrictions:

Applicable national and local chemicals laws are to be observed.

Additional information:
